Please Help Valentine!

This sweet eight pound senior terrier came to us on Valentine's day. He was abandoned during the night in an outside pen of a high-kill shelter. Valentine has a perianal hernia located near his rectum. It is extremely painful for him to defecate. He is scheduled for surgery to repair the hernia. Our vet tells us that if he does not have the surgery, then he should be euthanized. A specialist will perform the surgery at a cost of approximately \$1500. His chances of a complete recovery are excellent. Please help us to pay Valentine's vet bill. Thank you and God bless. Mark your check "Valentine" and mail to Angel Ridge Animal Rescue, 390 Old Hickory Ridge Road, Washington, PA 15301.
